

Please leave the No-call List Law in Wisconsin as it stands. I have enjoyed my right to privacy in my home since Wisconsin's law went into effect and ask that you put consumers, not telemarketers first. Just today, I was rudely hung up on by a telemarketer at my place of business after he took precious time from my workday. I prefer to choose if I want to go "shopping" and resent having to pay for services like Caller ID to screen out uninvited visitors.
